Technology, currently in progress*

## LANGUAGE

English

Setwana

Sotho

## SKILLS

Experience with languages such as Java, C++, C#, Python.

Knowledge of data structures, algorithms, and object-oriented programming

SQL

MS Office

## EXPERIENCE

### **ACADEMIC PROJECTS**

Throughout my academic career, I have developed a range of projects, including several collaborative endeavors. Notable examples include a functional chat application, a program designed for doctors to manage patient records, a system for encrypting and decrypting documents and media files, and a full-stack web application completed as part of my final year project.
